CLEVELAND OR HARRISON.

The Farmer Musi Choose Between Them. Some months Home and Farm sald the people in 1892 would have to choose between Cleveland and Harrison for

the personal transfer of the t We believe this is true today. The Prohibitionlets have nominated candi-dates who will not carry a single State. The Peoples party has nominated can-didates who may carry a few Republican States of the West, and it is claimed they

States of the West, and it laciamies they will carry some States of the West, and it laciamies they will carry some States of the Smith. For Western Republicans to vate for Gen. Weaver, is to insure the election of Mr. Cleveland.
For Southern Democrats to vote for Gen. Weaver, will be to make Mr. Harrison's calling and election sure.
Hence, our readers must decide merely between Harrison and Cleveland, for one of these two is certain to be President. Home and Farm has no trouble in deciding for itself this question. As far as the currency issue is concerned, there is no material difference between the Republican platform and the Democratic platform, and no great difference between Mr. Harrison's vlews and Mr. Cleveland's such that matter is for the time, at least, such that matter is for the time, at least, such as that matter is for the time, at least, such as that matter is for the time, at least, such as that matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is for the time, at least, such as the matter is the matter in the matter is the matter in the matter is the such as the matter in the matter is the matter in the matt so that matter is for the time, at least, put aside. The three great issues in our judgment on which the election must turn are these: First—The Tariff.

First.—The Tariff.
Second—The Force Bill.
Third.—Extravagant Expenditures.
The McKiniey bill is, in our judgment, a blight on our industries. It is not protection, but robbery. Laws of this character are the chief source of our woes, and prosperity will never be secured by any device until we do away with war tariffs, and with protective tariffs, and reduce our taxes on Importa to a revenue basis. The Democratic platform on this issue speaks in no unpatform on the issue speaks in our patform on the issue speaks in no unpatform on the issue speaks in

in a revenue basis. The Democratic piatform on this issue speaks in no uncertain terms. It is as follows:

We denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We delene it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to lupose and collect tariff duties except for the purposes of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the government when honestly and ecomic the government when honestly and ecomic

In our judgment this is the most im-

In our judgment this is the most important and the boidest political declaration that has come from either of the great political parties since the war. But this is not all; back of Mr. Harrison stalks the Force Bill; a bill which would do infinite mischlef throughout the South. The Republican platform endorses the Force Bill, and in an interview, Mr. Harrison timself, reiterates his views on the subject. He believes in the Force Bill and would be glad to execute it.

Furthermore Mr. Harrison reveals his attitude towards the Southern people by appointing a negro, named Crum, post-master at Charleston, S. C.

master at Charleston, S. C.
Again, the four years of Mr Harrison
have been marked by unbounded extravagance. Every appropriation bill has
swollen to enormons proportions Extraordinary expenses have characterized
every department. This recklessness in

every department. This recklessness in scattering the people's money has con-taminated the Democratic Congress, and the appropriations under Crisp, will near-iy equal those under Reed. We need a giant to grapple with such an evil. We need a man in the White House who has the honesty and the courage to defy the politicians of both parties, and held them to a strict accoun-tability to the people. For these reasons we believe that it is

parties, and hold them to a strict accountability to the people.

For these reasons we believe that it is to the interest of the farmers North, South, East and West, that Mr. Cleveland be elected president.

His success will end forever the Force Bill; it will make certain the radical reduction of the tariff; it will insure the adoption of a policy of economy and retrenchment.

When these reforms are secured, we shall be able to deal more wisely aud directly with the currency.

Let us not deceive ourselves; we are to have Cleveland or Harrison for the next four years. Should Weaver carry a single Southern State, it would simply mean the election of Harrison.

We do not believe the Southern farmers are ready for this.—Home and Parm.

AT HIGH BRIDGE. Miss Mollie Bouglass' Fourth of July En lertainment at "The Pallsades."

The day set for the opening of "The Pallsados" being on the giorinus Fourti, Miss Douglass decided on a military drill by twenty-four young ladies and gentiemen, dressed in the most artistic costumes of our Nation's colors. The drill was led by Miss Minnie Hawkins, who acted as Captain, and so easy and graceful did she give her commanda that every one was lond in their praise of her success, as well as that of her company. No well drilled soldler could have found fault with the drill for there was not one step too many nor one taken was not one step too many nor one taken out of time. It was a perfect military drill, and Miss Douglass certainly shows a great deal of skill in arranging a novel

affair.

During the drill the class sang many of the old war songs, so well suited to the occasion, and which made the "Giorious Fourth" a day to be remembered with pleasure by those who were present.

Next on the program was a host of Gypsies, all beautiful young ladles of the brunette type, and arrayed in the most gorgeous costumes, of all the brilliant colors so much loved by the Gypsy. They entered the tent from among thick foliage with their tambourine gingling, and singling those weird songs that one at once began to shiver in anticipation of what their fortunes would be if told of the contract of their contract of the contract of the contract of the contract of the contract of their contract of the contract of of what their fortunes would be if told of what their fortunes would be if told by these beautiful fortune teilers. They accended the stage and went through some bewildering, graceful dances, and then assuming the lounging attitudes so characteristic of the tribe, Miss Mary Mann appeared in their mildst and sang a Gypsy song in that sweet and unas-suming manner which is so wholly her own. This solo was followed by one by Wiss Bittills Stewars who lea well known. own. This solo was followed by one by Miss Birdle Stevens who is so well known Mass Birdle Stevens who is so well known here, and her appearance on the stage alaways brings a storm of applause. She is a tiny, graceful little creature, has a bird-like voice and her acting is very "fetching."

The flower celebration was beyond our description, but it was "thing of beauty" which must be seen to be appreciated, and lack of time prevents us from trying to give an outline of. The young ladles to give an outline of. The young ladles were all in white nut wearing flowers to represent their parts. Miss Corrine Hed ges was chosen queen and made the daintiest little ruler that subjects ever served. The chorus in this piece was strong, the solos sweet, and the duet by Misses Mann and Daudles was served.

Little Maudie Gibbons, a Miss of nine, recited the "Kentucky Belle" and brunght tears to many eyes. This little girl is a marvel.

Miss Douglass has been requested to give this entertainment in this city, and if she does we bespeak for her a fine house which she most certainly deserves.

The Silver Plank Explained.
By the coinage plank of its piatform, adopted at Chicago, the Democratic party piedges itself to coin silver on the same terms on which gold is cinted; to maintain the parity of the aliver, gold and paper money issued by the United States, and to aboilsh the existing premium on gold by the repeal of the Bulland paper money issued by the United. States, and to aboilsh the existing premium on gold by the repeal of the Bullion Storage act, through which aliver builton is demonstrated and the coleage of silver discontinued. The Democratic theory bimetallism and of the free coinage of the precious metals is clearly elucidated in the Chicago platform. The declaration of the free coinage principle, without which the bimetaille atandard can not be maintained, meets the demands of bimetailists and at the same time cuts away the ground from nader the feet of the advocates of the single gold standard. The Democratic party will not only restore the equality of silver with gold in coinage, but it will maintain the aliver, the gold, and the paper dollar at par with each other. It has declared a policy that will be attifactory to all Permorrats, West and East, and by this declaration of policy it in wites the support of all who are opposed to the single gold standard, to the unnatural premium on gold, and to a forced contraction of the currency.—St. Louis Republic.

The house was all right, she was sure of that; the key was under the kitchen doormat, the fire was out in the stove and the cut locked in the barn. She held her work-hardened palm to her side, panting a little, for it was a good bit of a walk across the mendow, and she was eighty years old on her last birthday. The cows feeding looked homelike and pleasant. "Good-by, critters," she said, aloud: "many's the time I've druv' ye home an' milked ye, an' I alius let ye eat by the way, nor never hurried ye as the boys done."

There's a wide difference between the help that's talked of and the help that's guaranteed.
Which do you want, when you're buying medicine?

Which do you want, when you're buying medicine?

If you're satisfied with words, you get them with every blood-purifier but one. That one is Dr. Pierce's Golden Medical Discovery. With that, you get a guarantee. It is doesn't help you, you have your money back. On this plan, a medicine that promises help is pretty sure to give it.

But it's because the medicine is different, that it's sold differently. Fa not like the sarsaparillas, which are said to be good for the blood in March, April, and May. At all seasons and in all cases, it cures permanently, as nothing else can, all the diseases arising from a torpid liver or from impure blood.

It's the best blood-purifier, and it's the cheapest, no matter how many doese are offered for a dollar.

With this, you pay only for the good you got.

With this, you pay only for the cod you get.

Can you ask more?

"August Flower"

"One of my neighbors, Mr. John Gilbert, has been sick for a long time. All thought him past recovery. He was horribly emaciated from the inaction of his liver and kidneys. It is difficult to describe his appearance and the miserable state of his health at that time. Help from any source seemed impossible. He tried your August Flower and the effect upon him was magical. It restored him to perfect health to the great astonishment of his family and friends." John Quibell, Holt, Ont. 8

subject to action of the Democratic party.

SALYEMSEVILLE, W., July 16, 182;
To the Democrats of the 10th Congressional District: On the first day of this mouth I announced myself a camildate for Congress, subject to the action of the Democracy of this district. This was before I knew of the camildacy of either Mr. Kendall or Mr. Bowles. I am still a camildate analytic to the action of my party.

See Election November 3, 1882.

We Election November 8, 1882.

We are subtried to amounter THOS. C. JOHNSON, of Wolfe county, as a candidate for Creatil Judge of the district cambracing Breathitt, Eaill, Lee, Magodia and Wolfe counties; subject to action of the Democratic party.

Commonwealth's Attorney.

We are authorized to announce JOSEPH M. KASH, of Hazel Green, as a candidate for Commonwealth's Attorney in the 22nd Judicial district, composed of the counties of threability, Still, Lee, Magodia and Wolfe, subject to action of the Democratic party.

os. C. Johnson, Esq., of Campton is announced in this issue as a candidat for Circuit Judge, subject to the action of a Democratic convention. Mr. John-son was raised on a farm in this county and has lived here all his life. He was and has lived here all his life. He was elected County Clerk when twenty one years of age, and held the office four years, rendering entire satisfaction in the discharge of its duties. He has been practicing law for seventeen years, five of which he was a partner with Judge John E. Cooper, the partnership ceasing only when Judge Cooper was called to the bench, and in all that time he has enjoyed an actually and placetics here. enjoyed an extensive and lucrative law practice, in which he has been phenome-nally successful. In the courts of this and the adjoining countles he has been engaged in criminal, common law and quity causes, and to his credit is the fact, that he associated in the control of the court of the fact, that he associated in the court of the court fact that he never lost but one equity case in all these years. Mr. Johnson is forty-two years of age, and his record herewith shows him to be thiroughly posted in the law, so that if he should be the third that it is the should be the should be the third that it is the should be should be the should be the should be the should be the should b posted in the law, so that if he should be the Democratic nominee and he elected the people of the district have in advance the assurance that we will have a Judge who knows the law and is not afraid to execute it in any instance. Mr. John-son being the only amounced candidate, there is every reason to believe that he will secure the nomination, though he may yet have opposition.

The prize awarded to our young friend Henry L. Godsey, as the best orator in the context at Chantauqua recently, was in itself a small matter, \$25 being the amount, but above and beyond its intrin-

crown his efforts, and a little more age make him the peer of any matter that graces the halls of Congrass. Persistent praise might "turn the head" of a less cently balanced boy, but we measure him this meed because an abiding fatth assures us that Henry Goodsey will main-tain the even leaur of his way, and prove himself a prince among word painters.

The announcement of Hon. D D
Sublett, who aspires to the Democratic
nomination for Congress from this district, appears in this issue of our paper,
and the attention of our reselers is directselfuent to make the race because of the
candidacy of his young friend, Hon. J.
M. Kendall. As Mr. Kendall is not now
a candidate, Mr. Sublett thinks it his
time, as his card will show, and we commend a consideration of his claims to mend a consideration of his claims to mend a consideration of his claims to the Democrats of the district. Dave, as he is familiarly known among his friends, has always been a Democrat—one of the working kind, to whom the party yoke was never n burden—and toiled with the boys in the trenches whenever duty de-manded. He is a self made man, his several times been elected or appointed to office, and in every instance has faithto office, and in every instance has faith fully fulfilled the trust reposed in him. He will be a formhibble candidate in the convention at Irvine on the 31st of Au-gust, and in the event of his nomination will raily around him the Democratic hosts of the mountains and carry to vic-tory the bunner of 'Tariff Reform in the Tenth district.

HON, J. M. KASH, who is announced HON, J. M. Kastt, who is announced as a candidate for Commonwealth's Attorney, has held the offices of Police Judge of Hazel Green, County Attorney and Master Commissioner, and in all of these positions proven himself thoroughly conversant with the respective dutles. He is an able prosecutor, and if nonlinated and elected to the position to which he aspires, will do much toward civilizing the criminal class. Mr. Kash is a man of pronounced convictions, and as State's Attorney he would soon be a terror to the criminals of the district. From present indications he has a cinch From present Indications he has a cinch on the nomination, as he is the only au-nounced candidate, and there is every reason to believe he will pluck the plun.

arkabte Matrimonial Experiences of an American in Mexico.

Frank C. Lawson, an American me-chanle of Zacatecas, Mexico, has been arrested and placed in jail on the charge of exceeding the limits prescribed by an old Mexican law still in force regulating matrimony. Lawson located at Zacate cas about four years ago coming from the City of Mexico, bringing with him a pretty Spanish woman as his wife. She died two months after their arrival and Lawson took another young wife. She died also, and the American continued to exercise his matrimonial propensities at a rate that astonished the natives, particularly as none of the wires lived longer than two or three mentis after becoming a bride.

Lawson uever wore the weeds longer than three months after the deulse of his respective wives, when he would re-peat the matrimonial experiment. The peat the matrimonial experiment. The people of the city are very conservative in such matters, and they let Lawson show with his remarkable and unfortu-nate domestic atlairs until three days ago, when it was learned be had married ago, when it was tearned he had married in bis thirteenth wife since his arrival in

On last Friday morning Ji dg 'Marcus C. Lisle left this place for Sid-resville. Judge Lisle spent about two weeks in the Big Sandy valley making acquaintances and presenting his chima for the Democratic nomination for Congress, and during that the made very many friends. His carnest, aggressive cancase last apring for the nomination showed him to be a man of energy, snap, vim and conrage, and the strength that he developed then proved that he will be a very formihable candidate in this present race. The Courier does not think it wise for Democratic papers to, as a rule, was for Democratic papers to, as a rule, ent race. The Courier does not think it wise for Democratic papers to, as a rule, take an active part in campaigns for party preference—except to oppose any who by their private life and character would bring the flush of shame to the cheek and brow of an homorable constit-uency or who have been disloyal to both party and principle—and is on no man's string; but independently gives to each man that which is due him, and extends the same courtesy to all. Judge Lisle is certainly aiming to leave no effort un-made that will further his interests, and should he be chosen as the Democratic standard bearer he will certainly lead the next no givers and is the halfs of the party to victory, and in the halis of our National council will acquit himself in such a way as to reflect credit upon his constituency and win laurels to himself .- Paintsville Courier.

A Louisville gentieman, familiar with wurks of art, and especially plaster casting, said to a Post reporter a few days ago: "I am agnosisled at the authorities of Jefferson county allowing a plaster cast to be made of Joei T. Hart's great statue of Henry Ciay. Why, if Mr. Hart were alive he would not think of remitting such a thing. It is his finest. Hart were alive he would not think of permitting such a thing. It is his finest work in my opinion, and I know that there are people in Chicago who would give \$15,000 for the privilege of making a casting off this figure. After the easting is made 100 or more copies of the statue can be taken from the saue moid, and it can be done up in brouze, terracutta or iron. It is surprising to me that Jailer Balley, a subordinate officer. cotta or Iron. It is surprising to me that Jailer Bailey, a subordinate officer, should be allowed to give the privilege of making this casting to a private firm. It is said this casting is to be unde exclusively for the World's Fair. Well then, there onght to be a stipulation that after one casting is taken the moid should be discreyed. I don't object to a private firm in Loulwille making \$15,000, or xen \$25,000. 000, or even \$25, 000, on a venture of this kind, but I think it is hardly fair to artists generally, and it is an especial in justice to Joei T. The moet thrown out of employment by Carnegle & Co. will hardly vote for Mr. Harrison this fall. Mr. Clarkson is reported as sw/ing that there had been no such 'convuisions in business as would make the great reduction necessary which Mr. Carnegle professed. The New York World recently published allist of works where reductions have been made since the passage of the McKinley bill, which was claimed by its advocates to be in the interest of the laborer, but has proven to be as stated by its opportunity of the manufacturer, This list was compiled by John De Wits. In another column of this paper will be found an advertisement of a medicine known as Chamberialn's Colic, Cholera known as Chamberialn's Colic, Cholera and Diarrea Remedy for sale by Kose & Jones, of this place. In almost every neighborhood throughout the west there are some oue or more persons whose lives have been saved by this remedy. It is natural for auch persons to take especial pleasure lu recommending the remedy to others. The praise that follows its Introduction and use makes it immensely popular. While it is intended especially for colle, cholera murbus, dysentery and diarrhosa, it also claimed to cure chronic diarrhosa. If such be the case, it is certainly a "Godsend" to many a poor mortal.

When such Republican partisans as
Chauncey M. Depew can find words of
praise for the Democratic nominee, it is praise for the Democratic nominee, it is certainly time, for all friends of honest government to unite on him, be they Independents, Mugmumps, Republicans or Democrats. Just prior to the Chleagu convention Mr. Depew paid Mr. Cleveland the following high compilment: "If I were to name the typical American, the man who loves and believes in his country beyond everything else—the man who, determined once in what direction his duty leads, cannot be swerved from the path—the man who is doggedly persistent in what he believes to be right—the man who thinks not of self, but of -the man who thinks not of self, but of his country and its needs, I would name Grover Cleveland. What he has accom-plished is the very highest tribute to the possibilities of American citizenship."

Supply and Demand the Only Scale.
No amount of legislation can regulate the law of supply and demand. Unless the production of silver can be stopped in all countries where the metal is mined, its value is beyond legislative control. is vaine is beyond legislatire coutrol. Under the existing law all the American sliver product is utilized as money, and gold and sliver are at par at the present day simply because the government exchanges the metals. The world's production of silver has Increased almost continuously from 55,390,000 ounces in 1874 to 143,559,000 ounces in 1871. The larger production, even at the decreased price, shows that the cost of mining, smelting and refuing has been reduced sufficiently to insure a good profit at raining prices.—Chicago Graphic.
